

icra2026

Workshop and International Conference
on Representations of Algebras

Mini-courses

Persistence theory:

Thomas Brüstle (Sherbrooke University, Canada)

Tensor triangular geometry:

Martin Gallauer (University of Warwick, UK)

Higher homological algebra:

Johanne Haugland (NTNU, Norway)

Infinity-categories:

Muriel Livernet (Université Paris Cité, France)

Extriangulated categories:

Hiroyuki Nakaoka (University of the Ryukyus, Japan) and Yann Palu (LAMFA, France)

Braid varieties:

José Simental (UNAM, Mexico)

Geometric models for gentle algebras:

Zhengfang Wang (Nanjing University, China)

Conference speakers

Roger Casals

(UC Davis, USA)

Raquel Coelho Simões

(Lancaster University, UK)

Francesca Fedele

(University of Leeds, UK)

Fabian Haiden

(University of Southern Denmark)

Osamu Iyama

(Tokyo University, Japan)

Olivier Schiffmann

(Université Paris Saclay, France)

Sarah Witherspoon

(Texas A&M University, USA)

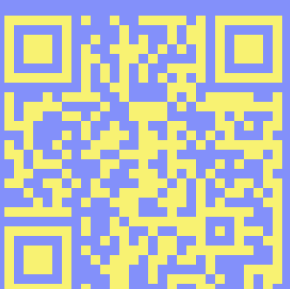

Emine Yıldırım

(ICMS Sofia, Bulgaria)

Organizing committee

Claire Amiot,
Frédéric Chapoton,
Misha Gorskii,
Bernhard Keller,
Yann Palu,
Pierre-Guy Plamondon,
Matthew Pressland,
Baptiste Rognerud

22nd June -
3rd July,
2026

Information/Registration
